Towards the under side of the upper two paths, which travel from the wet to the dry end, and the upper side of the under two paths of the pin belt i. German literature has consistently presented children as not belonging in the everyday world: in the Romantic era they existed on a transcendent plane; in the Bildungsroman they lived on the fringes of society until such time as they had become socially conformist adults; in the early twentieth century they were social misfits and consequently victims; and we saw in Chapter 2 the way that a positive myth of the child as representative

of another dimension has been maintained into the later twentieth century, where even children presented as victims of the Third Reich represent transcendent values.
